

Test cases for Swag Labs test example

Test case 1 - login without username and password

1. Go to <https://www.saucedemo.com/>
2. Leave the username and password fields empty
3. Click on login button
4. Verify that the "Epic sadface: Username is required" message appears

Expected result:

User is not able to login without valid credentials

Test case 2 - login with valid credentials and logout

1. Go to <https://www.saucedemo.com/>
2. Enter valid credentials in the username and password fields
3. Click on login button

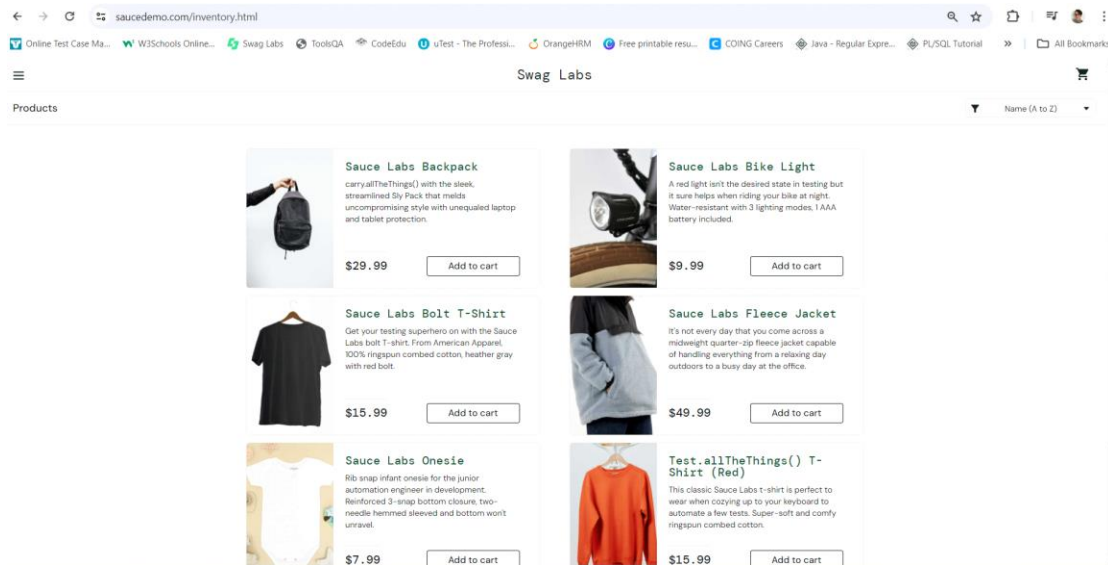

4. Verify that the home page listing all the products is present

5. Click on logout button

6. Verify that you are back at the page for login

Expected result:

User is able to successfully login using valid credentials and logout

Test case 3 - product listing page sorting

1. Go to <https://www.saucedemo.com/>

2. Login with valid credentials

3. Verify that the prices are listed in no particular order

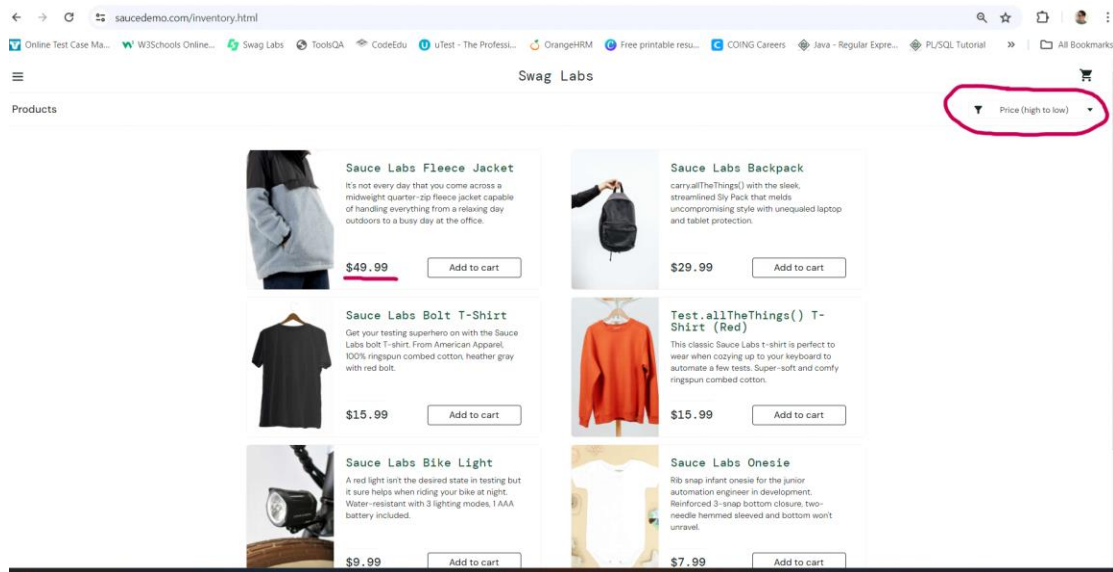

4. Click on the drop down menu and select Price (high to low)

5. Verify that the products are in fact listed now in that order, from highest to lowest price

Expected result:

The listing of the products is successfully changed after selecting an option from the drop down

menu

Test case 4 - add to cart and checkout

1. Go to <https://www.saucedemo.com/>
2. Login using valid credentials
3. Click on the first product
4. Click on the add to cart button
5. Click on the shopping cart button
6. Verify that the name of the product is the same in the cart as it was on the plp page
7. Click on the checkout button
8. Enter the information needed to proceed (name and zip code)
9. Click on the continue button
10. Click on the finish button
11. Verify that the message "Thank you for your order!" appears

Expected result:

A product is successfully added to cart and checkout is completed
